RE: Internship Opportunity

To Whomsoever It May Concern,

I wanted to contact you upon learning that your esteemed company has an internship opportunity opening. For the past two and a half years at New Jersey institute of Technology I have been searching for a place where I can apply my sharp grasping skills and the internship program feels like the right move for me.

I am a determined and enthusiastic individual with a strong sense of leadership. Skills like Excel, PostgreSQL, Tableau, Corporate Finance, Statistics, Python etc. will help me achieve my passions such as business/data analyst, project manager, etc. in the field of technology and business. I am also proficient in critical thinking and observation with great time-management skills. Working with people from diverse backgrounds has provided me with a deep understanding and awareness of differences in both individuals and organizations.

For further details of my qualifications, please take a moment to review the resume attached. I look forward to hearing back from you.

Sincerely,
Maulik Patel
